Telephone Bellary Third operator, sanction applied for.

The District Superintendent of Police, Bellary thinks (and I agree with him) that for Police purposes Telephonic communication should be available at all times during 24 hours. He further points out that with the Moblah Camp Jail and its large population there is always a chance of a serious outbreak and that quick communication is absolutely necessary. The Divisional Engineer Telegraphs Bangalore Division, who was consulted in the matter states that the system is still working at a loss as there are only 30 connections on the Bellary exchange, and that the questic of appointing a third operator for resumption of 24 hours service cannot therefore be taken up until there are 42 paying connections on the exchange. He further states that the additional cost of a third operator would come to Rs.480/- at Rs.40/- per mensem:

I am of opinion that 24 hours Telephonic service is necessary in Bellary I recommend that sanction may be accorded to incur an expenditure of Rs.480-0-0 for supplying a third operato

Every endeavour is being made to secure further subscribers. I think we should succeed if the Telegraph authorities were only able to comply with orders when they are made. But the delay in putting in an installation already ordered has to my knowledge disgusted several would be subscribers.

Reference:-Endorsement No.4849 A-2 Judicial (Police) Department, dated 18th January 1924.

I have the honour to inform you that the Divisional Engineer, Telegraphs, Bangalore Division, states that private subscribers to the telephone installation in Bellary have not consented to share the extra cost involved by the appointment of a third operator and that the entire cost will have to be borne by the Government subscribers only. He also states that the extra cost is Rs.600/- per annum.

8

2 Information as to the proportionate amount of extra expenditure that will be debitable to the Police Department has been called for by the District Superintendent of Police from the Collector and it will be furnished on receipt.

3 The hours of work at present on the telephone system are between 7 a.m. and 10 p.m.

4 The distance of the Mapilla camp jail from the District Superintendent's bungalow is 2 miles and 1½ miles from the Cowlbazaar Police station.

5 The Collector's letter received with the Judicial Endorsement is herewith returned.

The Government consider that the object in view could be attained by the adoption of the following plan:

~~At present the telephone stops work at 10 p.m~~ All the operator need do is to switch the jail telephone to the police office at 10 p.m. every night and leave the connection fixed all night. The Supdt. is requested to give a trial to the above arrangement and report if it is found unworkable or unsatisfactory.

Begin the operator goes off duty at night in which connects the jail

Telephone - Bellary - 3rd operator - proposal.

Ref:- Government Memo No.4849 A-3. dated 21st May 1924.

The proposed connection between the Jail and the Police office seems to be absolutely useless. The Police office is 3 miles from the reserve lines, 1 mile from the District Superintendent of Police's bungalow, and 3 miles from the District Magistrate's Bungalow. Doubtless an orderly is on duty at the Police office, but an orderly or several orderlies are not likely to be of much use in the event of an outbreak.

A much better scheme has been in use for months. The Jail is connected with the District Superintendent of Police's bungalow; but that is already proved unsatisfactory.

*Telephone - Bellary 3rd operator - proposal.
Ref. Government memo No.2279 A-1 dated 14-6-24

The better scheme referred to in my letter No.4428/23 dated 26th May 1924 has proved unsatisfactory because it is not enough. The Gaol, the District Superintendent of Police, the District Magistrate and the Reserve Police lines at least ought to be always on the phone; and without a working exchange, that is impossible.

There is a very simple way of avoiding the extra cost. At present the telephone stops work at 10 pm. All the operator need do is to switch the local into the police office at 10pm every night and leave the connection standing all night - So that the telephone would be used once a month after 10 pm. If they want to telephone they ring up ring straight through. If they do. I have done this in Ooty in days when the telephone operator went off duty at 10 and it worked successfully.

It is only in the last 2 years that there has been continuous telephone service in Oodacamund. In view of the fact that there has hitherto been no trouble in the Bellary dail I doubt if the extra expenditure of Rs 600 annually on a 3rd operator is justified
